

ALPA MEMBERS SPECIAL

This benefit is only available to full ALPA members.

What is Stockinsure?

Stockinsure was an initiative of The Stock & Station Agents Association (now ALPA) in the mid 90's. It was created to provide member agents with an avenue to take up insurance in the event of a meat processor, exporter, feedlot, butcher or trader becoming insolvent.

What it means to the producer, is that if your agent is a member of Stockinsure, he is more likely to have the capacity to pay you for your livestock, should the insured buyer become insolvent.

It removes one uncertainty from the business of producing livestock and you can sleep much easier as a result.

To the member it increases their ability to leverage on the strength of their balance sheet.
